Edmonton 2012 -

Course Name	Course Number	No. Days	May-12				Jun-12				Jul-12					Aug-12				Sep-12					Oct-12				Nov-12				Dec-12				
			6	13	20	27	3	10	17	24	1	8	15	22	29	5	12	19	26	2	9	16	23	30	7	14	21	28	4	11	18	25	2	9	16	23	30
Controllogix Controllers - ** Deluxe Kit Available																																					
ControlLogix System Fundamentals **	CCP146	2.0				T																			T												
RSLogix5000 Basic Ladder Logic Programming **	CCP151	2.0				TH																			TH												
ControlLogix Maintenance & Troubleshooting **	CCP153	4.0						T																		T								T			
RSLogix5000 Project Development **	CCP143	4.0					T																									T					
ControlLogix System Fundamentals & Troubleshooting **	CCP299	4.5												M																M							
Programmable Controllers ** Deluxe Kit Available																																					
PLC-5/SLC500 Fundamentals Using RSLogix **	CCP122	2.0													T															T							
PLC-5 Maintenance & TS using RSLogix 5 Software	CCP412	4.0	T																T	T																	
SLC500 Maintenance & Troubleshooting **	CCPS43	4.0																	T												T						
Safety																																					
Arc Flash Safety Training	Custom	2.0																																			
Communications / Networks																																					
Introduction to Automation and the Integrated Architecture system	CIA101	2.0																																			
Controlnet and RSNetWorx Configuration & Troubleshooting	CCP173	3.0																											T								
DeviceNet Maintenance & Configuration	CCP164	3.0																																			
Visualization																																					
Factory Talk ME Programming for the PanelView Plus Formerly RSView ME **	CCV204	4.0							T																												
Factory Talk SE Maintenance & T S Formerly RSView SE	CCV206LD	2.0																																			
Factory Talk SE Programming Formerly RSView SE Programming	CCV207	4.5								M																		M									
Rockwell Software Courses																																					
Factory Talk Metrics with Historian Classic Configuration	RS-FTMHCC	4.0																																			
FactoryTalk Asset Center Configuration	RS-FTACC	2.0																																			
Process Control																																					
PlantPax Process Automation System Integration	PRS013	4.5																																			
Drives ** All Pwflex classes use Pwflex700 demos																																					
PowerFlex70/700 AC Drive Start Up	CCA161	1.0			W																			W												
PowerFlex70/700 AC Drive Maintenance & TS	CCA163	1.0			TH																			TH												
PowerFlex70/700 AC Drive Communications on Devicenet	CCA162	1.0			F																			F												
ICM Courses/Condition Monitoring																																					
Introduction to Vibration Technology (ISO Category 1)	CANICM105	4.0																												T							
Basic Vibration Analysis (ISO Category II)	CANICM205	5.0																														M					

Legend = Monday **T**uesday **W**ednesday **TH**ursday **F**riday**C**ancelled YELLOW = Holiday ALL CLASSES HAVE A 3 STUDENT MINIMUM

** - Deluxe Kit consists of your RA Training Class with a reduced price corresponding CBT (Computer Based Training) CD. CALGARY CLASSES IN BLUE
