Edmonton 2011 - 2012

Course Name	Course Number	No. Days	Class # of Voucher	Deluxe Kit # of Vouchers	Jan-12					Feb-12				Mar-12				Apr-12					May-12				Jun-12				Jul-12					Aug-12				Sep-12				
					1	8	15	22	29	5	12	19	26	4	11	18	25	1	8	15	22	29	6	13	20	27	3	10	17	24	1	8	15	22	29	5	12	19	26	2	9	16	23	30
Controllogix Controllers - ** Deluxe Kit Available																																												
ControlLogix System Fundamentals **	CCP146	2.0	3	6																					T																			
RSLogix5000 Basic Ladder Logic Programming **	CCP151	2.0	3	7																					TH																			
ControlLogix Maintenance & Troubleshooting **	CCP153	4.0	5	9								T															T																	
RSLogix5000 Project Development **	CCP143	4.0	5	9														M								T																	
ControlLogix System Fundamentals & Troubleshooting **	CCP299	4.5	6	10												M																											
RSLogix 5000 Function Block Programming	CCP152	2.0	3																																								
Programmable Controllers ** Deluxe Kit Available																																												
PLC-5/SLC500 Fundamentals Using RSLogix **	CCP122	2.0	3	5															T																									
PLC-5 Maintenance & TS using RSLogix 5 Software	CCP412	4.0	5	7			T																T																				
PLC-5 Programming **	CCP410	4.0	5	7													T																										
PLC-5 Advanced Programming using RSLogix 5 Software	CCP411	4.5	6																					M																			
SLC500 Maintenance & Troubleshooting **	CCPS43	4.0	5	8											T																												
SLC500 Programming **	CCPS41	4.0	5	8																	T																						
SLC500 Advanced Programming **	CCPS42	4.0	5	8																		T																					
Safety																																												
GuardLogix Application Development	SAF-LOG101	2.0	3																																								
GuardLogix Maintenance & Troubleshooting	SAF-LOG102	2.0	3																																								
Arc Flash Safety Training	Custom	2.0	3																																								
Communications ** Deluxe Kit Available																																												
DeviceNet Maintenance & Configuration	CCP164	3.0	4										T																														
Controlnet Design & Configuration	CCP170	2.0	3											T																													
Controlnet Maintenance & Troubleshooting	CCP172	2.0	3											TH																													
Ethernet/IP Design & Troubleshooting	CCP178	3.0	4																																								
Visualization ** Deluxe Kit Available																																												
RSView32 Project Development Formerly RS-RSVTRG	CCV201	4.5	6																	M																								
Factory Talk ME Programming for the PanelView Plus Formerly RSView ME **	CCV204	4.0	5																									T															
Factory Talk SE Maintenance & T S Formerly RSView SE	CCV206LD	2.0	3																																								
Factory Talk SE Programming Formerly RSView SE Programming	CCV207	4.5	6																										M														
Rockwell Software Courses																																												
Factory Talk Metrics with Historian Classic Configuration	RS-FTMHCC	4.0	5																																								
FactoryTalk Asset Center Configuration	RS-FTACC	2.0	3																																								
Process Control																																												
PlantPax Process Automation System Integration	PRS013	4.5	6								M																																	
Drives ** All Pwflex classes use Pwflex700 demos																																												
Fundamentals of AC/DC Drives	CCA101	2.0	3																																								
1336 Plus II Maintenance & Troubleshooting	CCA137	3.0	4																																								
PowerFlex70/700 AC Drive Start Up	CCA161	1.0	2						T															W																			
PowerFlex70/700 AC Drive Maintenance & TS	CCA163	1.0	2						W															TH																			
PowerFlex70/700 AC Drive Communications on Devicenet	CCA162	1.0	2																					F																			
ICM Courses/Condition Monitoring																																												
Introduction to Vibration Technology (ISO Category 1)	CANICM105	4.0	5																									T															
Basic Vibration Analysis (ISO Category II)	CANICM205	5.0	6																										M														

Legend = Monday **T**uesday **W**ednesday **TH**ursday **F**riday**C**ancelled YELLOW = Holiday ALL CLASSES HAVE A 3 STUDENT MINIMUM

** - Deluxe Kit consists of your RA Training Class with a reduced price corresponding CBT (Computer Based Training) CD. CALGARY CLASSES IN BLUE
