

# Vancouver 2012

Course Name	Course Number	No. Days	Class # of Voucher	Jan-12					Feb-12				Mar-12				Apr-12				May-12				Jun-12			
				1	8	15	22	29	5	12	19	26	4	11	18	25	1	8	15	22	29	6	13	20	27	3	10	17
<b>ControlLogix Controllers - ** Deluxe Kit Available</b>																												
ControlLogix System Fundamentals **	CCP146	2.0	3																									
ControlLogix System Fundamentals & Troubleshooting **	CCP299	4.5	6																									
RSLogix5000 Basic Ladder Logic Programming **	CCP151	2.0	3																									
ControlLogix Maintenance & Troubleshooting **	CCP153	4.0	5																									
RSLogix5000 Project Development **	CCP143	4.0	5																									
PLC-5 to ControlLogix Transitioning	CCP710	2.0	3																									
<b>Programmable Controllers ** Deluxe Kit Available</b>																												
PLC-5/SLC500 Fundamentals Using RSLogix **	CCP122	2.0	3																									
PLC-5 Maintenance & TS using RSLogix 5 Software	CCP412	4.0	5																									
PLC-5 Programming **	CCP410	4.0	5																									
PLC-5 Advanced Programming using RSLogix 5 Software	CCP411	4.5	6																									
SLC500 Maintenance & Troubleshooting **	CCPS43	4.0	5																									
SLC500 Programming **	CCPS41	4.0	5																									
SLC500 Advanced Programming **	CCPS42	4.0	5																									
<b>Safety</b>																												
GuardLogix Application Development	SAF-LOG101	2.0	3																									
GuardLogix Maintenance & Troubleshooting	SAF-LOG102	2.0	3																									
Arc Flash Safety Training	Custom	2.0	3																									
<b>Communications ** Deluxe Kit Available</b>																												
DeviceNet Maintenance & Configuration	CCP164	3.0	4																									
Controlnet Design & Configuration	CCP170	2.0	3																									
Controlnet Maintenance & Troubleshooting	CCP172	2.0	3																									
Ethernet/IP Design & Troubleshooting	CCP178	3.0	4																									
<b>Visualization ** Deluxe Kit Available</b>																												
RSView32 Project Development Formerly RS-RSVTRG	CCV201	4.5	6																									
Factory Talk ME Programming for the PanelView Plus Formerly RSView ME **	CCV204	4.0	5																									
Factory Talk SE Programming Formerly RSView SE Programming	CCV207	4.5	6																									
<b>Intelligent Motion</b>																												
Motion Control Fundamentals	CCN130	2.0	3																									
RSLogix5000 Motion Programming Using Ladder Logic	CCN142	3.0	4																									
<b>Rockwell Software Courses</b>																												
Factory Talk Metrics with Historian Classic Configuration	RS-FTMHCC	4.0	5																									
FactoryTalk Asset Center Configuration	RS-FTACC	2.0	3																									
<b>Drives ** All Pwflex classes use Pwflex700 demos</b>																												
Fundamentals of AC/DC Drives	CCA101	2.0	3																									
1336 Plus II Maintenance & Troubleshooting	CCA137	3.0	4																									
PowerFlex70/700 AC Drive Start Up	CCA161	1.0	2																									
PowerFlex70/700 AC Drive Maintenance & TS	CCA163	1.0	2																									
PowerFlex70/700 AC Drive Communications on Devicenet	CCA162	1.0	2																									
<b>ICM Courses/Condition Monitoring</b>																												
Introduction to Vibration Technology (ISO Category 1)	CANICM105	4.0	5																									
Basic Vibration Analysis (ISO Category II)	CANICM205	5.0	6																									

**Legend = Monday Tuesday Wednesday Thursday Cancelled YELLOW = Holiday ALL CLASSES HAVE A 3 STUDENT MINIMUM**

**\*\* - Deluxe Kit consists of your RA Training Class with a reduced price corresponding CBT (Computer Based Training) CD.**

**Vancouver classes in RED. Nanaimo in Purple Prince George in Green Kelowna in Blue**

**Ask your local Allen-Bradley Distributor or Rockwell Automation Training Coordinator for more information or to register today!**
